MAIN STREET PROJECT

Next week, Pleasant Street Extension will be closed to thru traffic at the Main Street intersection in order for work crews to install the crosswalk spanning Pleasant Street Extension. This involves trenching across the street, installation of flush curbing, preparation for and pouring of the concrete crosswalk foundation, laying pavers, and paving. Pleasant Street Extension will be open at the Storrs Street end (but not for thru traffic) and on-street parking will be available while the work is being done. The current work zone on the east side of South Main Street remains in place and will be active.

Installation of Snow Melt System

Also next week, prep work will begin for the installation of underground utilities later this summer. As a result, some parking on the west side of South Main Street will be unavailable at various times. This will occur in the areas in front of the Concord Food Co-op, Outfitters Thrift Store, and New England Cupcakery. Sidewalks in these areas will be temporarily closed and flaggers will be on site to assist pedestrians.
